

The Gold Standard for Gas Analysis

17 April 2020

To Our Loyal Customers,

It is with great excitement that we are announcing that Atlantic Analytical Laboratory (AAL) has fully relocated to our new facility. AAL has been providing quality gas analysis and superior customer service for the past 30 years. During this time AAL has transformed to meet the constantly shifting needs of our customers. This relocation allowed us to design a technologically advanced laboratory specifically tailored to suit our clients' needs and to readily adapt to future analytical demands.

Both our new and old facilities are located within the same industrial park, so any shipments sent to our previous location will be redirected to our new building and received there.

Our mailing and billing address is unchanged and is as follows:

Atlantic Analytical Laboratory
PO Box 220
Whitehouse, NJ 08888

Our new shipping address and site location:

Atlantic Analytical Laboratory
291 Route 22 East, Salem Industrial Park – Building # 1
Whitehouse, NJ 08888

If you have any questions or concerns regarding this transition please do not hesitate to reach out to our management team. Once again, thank you for your continued patronage.

Regards,
The Management Team
